Patented locking  
mechanism prevents  
cannula separation  
from syringe

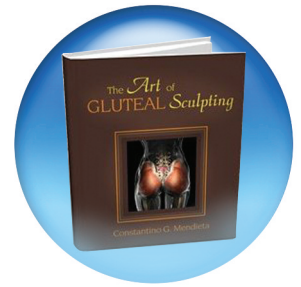

Diameter, length and  
curvature facilitate  
optimal efficiency in  
the OR

Adopt Dr. Mendieta's  
technique to obtain  
natural-looking  
results

## **The Mendieta Set**

*To artistically enhance  
a natural shape  
into a desired physique*

*Designed and Inspired by*  
**Dr. Constantino G. Mendieta**

Dr. Constantino G. Mendieta

**Dr. Constantino G. Mendieta** is not just a plastic surgeon; he is an innovator and authority in the field of plastic surgery that has been named one of America's Top Surgeons for five years in a row by the Consumer Research Council in America.

Dr. Mendieta authored the book "*The Art of Gluteal Sculpting*", sharing the effective method behind his signature butt enhancement technique, the "Highlight Liposculpting and Lipo Fat Transfer" 3-D approach. Dr. Mendieta stands out amongst his peers for improving upon the individual's looks while preserving their natural, cultural beauty.

**Marina Medical** is proud to add these patented cannulas for breast and gluteal augmentation to our **Koume Lipoplasty** product line.

## Proprietary Injection Set for the Breasts

Dr. Mendieta's spoon tip injectors consist of atraumatic tips that facilitate efficient, accurate and precise injection while the curved design replicates the natural contour of the breast. The 12cm blunt injector is perfectly designed to place small aliquots of fat into the medial quadrants of the breast.
