An Open Letter to Our Valued Customers

First of all, we thank you for sharing your compliments, complaints and criticisms regarding our products and services. We rely on this constant dialogue with you, our valued customer, to fuel the ongoing improvement of our products, services and processes.

This process, known as continuous improvement, has infiltrated every department at Marina Medical. In fact, there is an ongoing project that we would like to share with you. The purpose of this project is to design, develop and deliver the most surgeon-focused portfolio of products.

Our strategy for this project is simple - deconstruct and reconstruct our portfolio of products by surgical procedure and work with subject matter experts to identify holes and opportunities for improvement within our portfolio. You will gradually be introduced to our redesigned portfolio of products through a series of procedure-specific catalogs. Considering scissors are utilized in most surgical procedures, we decided this was the best place to start.

The project of redesigning our scissors portfolio consisted of multiple trips to Germany to visit the manufacturing facilities, countless hours of dialogue with our engineers and medical advisors and most importantly... a razor-sharp focus on designing, developing and delivering the most surgeon focused portfolio of scissors.

We invite you to try our new scissors and please stay tuned for more surgeon-focused solutions from Marina Medical.

Thank you,

The Marina Medical Team
We focused on our surgeon’s requirements while designing, developing and delivering our brand new portfolio of scissors.

To design our portfolio, we identified which scissors to offer and opportunities for improving those patterns.

To develop our portfolio, we started with the highest quality materials and most capable manufacturing processes to ensure a consistent output.

Finally, to deliver our portfolio, we committed to always keep our scissors in inventory and to always make ourselves available to our customers.

These are just a few of the ways that we design, develop and deliver surgeon-focused solutions.
Ceramic Coating, Gold Screw
Atraumatic Micro-Serrations
Ceramic Coated Knife Edge and Micro-Serrations
Fine, Precise, Minimal Trauma
Micro-Smooth, Non-Reflective Surface
Smooth Finger Rings
Balanced Weight
Lifetime Warranty*

Supercut (SC)
Black Rings, Black Screw
Atraumatic Micro-Serrations
Knife Edge and Micro-Serrations
Fine, Precise, Minimal Trauma
Highly Polished Blades, Non-Reflective Shanks
Smooth Finger Rings
Balanced Weight
Lifetime Warranty*

Tungsten Carbide (TC)
Gold Rings, Gold Screw
Atraumatic Micro-Serrations
Seamless Tungsten Carbide Weld on Knife Edge
and Micro-Serrations
Fine, Precise, Minimal Trauma
Highly Polished Blades, Non-Reflective Shanks
Smooth Finger Rings
Balanced Weight
Lifetime Warranty*

*Marina Medical offers a lifetime warranty against manufacturing defects. Please contact your account manager should you need any servicing related to wear and tear.
